Problem Statement

Optimize Your Path to the Next Job

STEP 01

Build Your Profile

Upload your current CV or manually input your professional history. Our AI parses and structures your data into a dynamic career profile.

STEP 02

Define Your Target

Submit job ads for the roles you want. The system extracts specific keywords, required technical skills, and essential soft skill benchmarks.

STEP 03

Analyze & Align

Receive a semantic match score and a detailed gap analysis. Get actionable tips on missing skills to ensure your CV matches the job perfectly.
